PRESENTATION

My name is Pierre and I'm a French Wedding filmmaker.

I make elegant, timeless wedding films for an international luxury clientele in France and abroad.

*Filmmaking has been my job for few years now.
Since I first started, I have always thought that video could be
an extraordinary way to tell beautiful stories
and to create emotions.*

*For me, videography is about unique moments
and loving. As a storytelling lover, I will help you to build your
own and unique story with my creative and elegant vision.*

VISION & CREATIVE APPROACH

Three words that best describe my vision and my wedding film style. With an eye for the finer things, my videography strikes a perfect balance between editorial and documentary approaches. With unique perspectives, the result is an aesthetic that will stand the test of time while staying true to your story.

A GLIMPSE OF THE FRENCH ART DE VIVRE

Based in Paris, I'm lucky enough to be amazed on a daily basis by the architecture, museums, fashion and gastronomy that inspire me and make me love the French art de vivre.

Choosing me for your wedding film also means choosing a vision of what makes the charm and elegance of the French art de vivre.

PROCESS & EXPERIENCE

01. MEET & DREAM

Our first meeting, often via visio conference will be a chance to dream about your day, ask us questions and get to know each other. To secure your wedding date, we require a date payment deposit and a signed agreement.

02. PREPARE & PLAN

From timeline planning to location scouting we go the extra mile to ensure we have the time and space to create our images. We work closely with wedding planners to ensure things will run smoothly on the day.

03. ON THE BIG DAY

We approach your day prepared and ready to create. On one hand, we love to blend in like guests, documenting and capturing little moments as they happen. On the other, we will direct you when needed and ensure you look and feel your absolute best.

04. YOUR STORY PRESENTED

After the day, we put our hearts and souls into editing, as you receive a very exciting final delivery, full of your precious memories.

INVESTMENT

We want to make the wedding film experience as simple and relevant as possible for you, so our services are comprehensive and include the following:

FULL DAY PRESENCE

The service includes a presence throughout the day (from the preparations to the dancing party), on a flat-rate basis rather than according to a precise number of hours for a minimum of 2 shooters.

FILM EDITING

The service includes the time spent editing the film, depending on the option and format chosen.

GEAR AMORTIZATION

The service includes depreciation of the top-of-the-range equipment used for the service. This includes the cameras, lenses, drone, sound recording systems and all the accessories needed to get the best possible shots.

TRAVEL FEES

Whatever the destination in France, travel fees are included in the service. In fact, as I communicate the fact that I work all over France, it seems natural to me not to charge for coming to immortalise your wedding anywhere in France. There will be a charge for weddings abroad.

ONLINE GALLERY

The service includes delivery of your wedding film on a private, personalised video gallery so that you can easily share it with your friends and family and view it without restriction on a secure platform.
